

## Grass Tree Track

**30 mins**

**Experienced only**

5

**862 m One way**

**4m**

The Grass Tree Track links Wybung Head Rd with Frazer Beach via a ridge-top track. At the time of writing, this track was very overgrown (hence the high grade) and the trackhead difficult to find. Once on course, much of the track is clearer and quiet eroded in places. It is an interesting walk to see some diverse vegetation, noticing how it changes with altitude. At the bottom of the hill, the track emerges onto Frazer Beach before heading to the picnic area at the end of Frazer Rd.

### Are you ready to have fun?

Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are not included in this walk overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking. **Experienced walkers only: This walk passes through very remote areas and sections have no visible track. At least one person in your group should have training and experience in off track walking and navigation. Even with these notes and a GPS these extra skills and equipment are required.**

**Getting there** Traveling by car is the only practical way to get to Upper end of Grass Tree Track (gps: -33.1939, 151.6184). Car: A park entry fee is required for driving into the park.

Traveling by car is the only practical way to get back from Frazer Beach Picnic Area (gps: -33.1878, 151.622). Car: A park entry fee is required for driving into the park.

Find up to date and more information including; travel directions, weather, park closures and walker feedback at <http://wild.tl/gtt>

### 0 | Upper end of Grass Tree Track

*(740 m 16 mins)* From the intersection (60m east of the turning area at the top of Geebung Trail), this walk follows the faint Grass Tree track north over a small rise and through the dense vegetation. Soon the vegetation become shorter and the distant ocean views return. The track is flat for a while, then starts to head down the ridge. In places, the track is quiet eroded and a few parallel tracks have formed (please try to follow the main track). As the track approaches the beach, it enters a forest of taller trees and then leads to the sandy Frazer Beach, just at the bottom end of Bongon Lagoon (on the left).

### 0.74 | Frazer Beach

Frazer Beach is a 650m-wide sandy beach, facing south-east. The beach is a popular swimming area with a patrol service provided during Christmas, Easter and April School Holidays. The back of the beach is home to Bongon Lagoon. Up the hill near the road is a large car park, several picnic tables, an amenities block (with shower and toilets), an emergency phone and Frazer camping ground. There is limited natural shade, but the beach is a interesting place to explore and relax.

### 0.74 | Bongon Lagoon

*(130 m 2 mins)* Veer left: From the beach, this walk heads inland across the sand, keeping Bongon Lagoon to the left. The walk soon tends right up to the lower car park, then continues uphill along the grass to the turning loop of Frazer Beach Road (on the left) and the picnic tables and shelter on the right.

### 0.86 | Frazer Beach Picnic Area

Frazer Beach Picnic Area is found at the end of Frazer Beach Rd. There is a great view over the the beach and out to sea. There are a couple of sheltered tables and more unsheltered tables, as well as direct access to the beach down the stairs. An amenities block is just above the upper car park, as well as an emergency telephone.
