

Are you ready to have fun?

Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are not included in this walks overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

Getting there Traveling by car is the only practical way to get to Corner of Loftus and Neil Streets (gps: -34.0814, 151.1588). Car: A park entry fee is required for driving into the park.

This is a return, so you will finish back at the start.

Find up to date and more information inlcuding; travel directions, weather, park closures and walker feedback at http://wild.tl/jhe

0 | Bundeena

Bundeena is a small township at the northern end of Royal National Park and the southern side of the entrance to Port Hacking. The town can be accessed by car or ferry. There are a few B&B's and other accommodation options and a number of cafes to choose from. Bundeena has a mixed atmosphere, partly a beach holiday community but also home to some permanent residents. There are two main beaches - Hordens Beach to the west and Jibbon Beach to the east. Both are nice beaches inside Port Hacking. More info.

0 | Corner of Loftus and Neil Streets

(750 m 12 mins) From the corner of Neil and Loftus Streets, this walk heads down the footpath between the houses and onto the end of Jibbon Beach. From here, the walk follows the beach past the large 'Royal National Park' sign and, after several hundred metres, comes to an intersection and a large green sign saying 'Jibbon Loop Track', approximately 90m from the end of the beach.

0.75 | Jibbon Beach

Jibbon Beach is in the Royal National Park, just east of Bundeena. The yellow sand, crescent-shaped beach is about 800m long and looks north across the entrance to Port Hacking. The beach is in a bay that forms part of a popular harbour for sailing boats. There is a rock shelf at either end of the beach. From the north-eastern end of the beach, there is a track leading to the Jibbon Head Aboriginal engravings site and Little Jibbon Beach. There are no patrols or other

facilities at this beach.

0.75 | Northern end of Jibbon Beach

(490 m 9 mins) Continue straight: From the intersection, this walk follows the 'Jibbon Head' sign about 100m to the end of the beach (keeping the water to the left). The track then steps up a few rocks and turns right (away from the water), heading through a grassy clearing and then through a tunnel formed by the thick vegetation. The track soon emerges on an unfenced rock platform with great views across the water to Cronulla. Here, the walk heads back into the bush to cross a gully (with an informal track leading left to Little Jibbon Beach). The track then climbs out of the gully to a smaller rock platform and intersection marked with a green metal pole.

1.25 | Little Jibbon Beach

Little Jibbon Beach is found just north of Jibbon Beach in the Royal National Park. The small beach can be accessed via the Jibbon Head track. This north-facing beach has great views across Port Hacking towards Cronulla. This is not a nudest beach (as some believe) - If you see nudest bathers, they can be reported by calling Crime Stoppers on 131 444.

1.25 | Little Jibbon Beach intersection

(40 m 1 mins) Turn right: From the intersection, this walk heads directly away from the water and cliff edge, following the track into the thick bush. The track soon leads to a large clearing and rock platform with several Aboriginal engravings - please take care not to step on or near the engravings.

1.29 | Jibbon Head Aboriginal Engravings

These Aboriginal engravings are found on the western side of Jibbon Head, just above little Jibbon Beach. The large rock shelf has a number of large engraving of both marine and land animals. Most are in good condition - the whale is particularly large, so you will need to stand right back to see it. Take care not to walk on the engravings - lets preserve this site for many generations to come.
