Galston Gorge to Mt Kuring-gai

5 hrs 30 mins  Hard track
12.6 km One way  846m

This walk follows the eastern side of the steep Berowra Creek valley from Galston Gorge to Crosslands and then heads over the ridge to follow Lyrbird Gully up to the train station at Mt Kuring-gai. This enjoyable section of The Great North Walk spends most of the time enjoying the wide tidal creeks in the deep valleys. There are many grass trees and sandstone caves to enjoy as well as several lovely places to camp. Crosslands provides road access, a chance to fill up the water bottle and an optional side trip to motel style accommodation at Crosslands Conventions centre.
Galston Gorge track head

Galston Gorge track head is located at a small car park on the eastern side of Berowra Creek, near the bottom of the gorge on Galston Road. This track head is a good access point for those wanting to do sections of the Great North Walk and is well signposted. Keep an eye open for the local chickens.

Gulley Creek Falls

This is a nice little creek crossing on the Great North Walk in Galston Gorge. The small falls flow just upstream of the track, even after a small amount of rain. Enjoy the cool shade of the trees at the creek crossing from the track.

Berowra Creek campsite

This shady campsite is located on the Benowie Track a short distance back from Berowra Creek, south of the Crosslands Reserve. Providing plenty of tree cover, flat ground and an established fire scar, this campsite is a great spot for those walkers who want a quiet night's sleep away from the more popular Crosslands Reserve. The creek water is brackish at this point, so it is not drinkable (except after heavy rain and lower tide, but then the water is more polluted) - best to bring your own water.

Crosslands Campsite

On the far southern end of Crosslands Reserve is a toilet block and campsite. The campsite is well set up and managed by Hornsby Council. There are picnic tables, electric barbecues, toilets, a children's playground, garbage bins and town water. There is a large flat grassy area to camp and a single authorised fire pit. The campsite must be booked and fees apply - $9 per night for adults and $6 for children (infants under 4 are free). The gate at the top of the hill is locked at 5.30pm EST and 7.30pm (daylight savings time). A pleasant and well established campsite beside the river. More info.

Before You walk

Bushwalking is fun and a wonderful way to enjoy our natural places.

Sometimes things go bad, with a bit of planning you can increase your chance of having an enjoyable and safer walk.

Before setting off on your walk check

1) Weather Forecast (BOM Metropolitan District)
2) Fire Dangers (Greater Sydney Region)
3) Park Alerts (Berowra Valley National Park)
4) Research the walk to check your party has the skills, fitness and equipment required
5) Agree to stay as a group and not leave anyone to walk solo

Think before you TREK

The 'Think before you TREK' program developed by NSW Police & NPWS promotes the benefits of planning ahead for your bushwalking trip by using an easy to remember acronym:

T Take adequate supplies of food, water, navigation and first aid equipment.
R Register your planned route and tell friends and family when you expect to return.
E Emergency beacon (PLB's) should be carried on walks with significant gaps in mobile coverage (check terrain profile).
K Keep to your planned route and follow the map and walking trails.

Topo Maps

The maps provided on wildwalks are helpful, but there are times where you may need maps covering a broader area. Maps that cover this walk include:

1:25 000 Map Series: 91304S HORNSBY, 91304N COWAN
1:40 000 Map Series: CMA Ku-ring-gai Chase National Park
Tourist Map
1:100 000 Map Series: 9130 SYDNEY

Grade

This walk has been graded using the AS 2156.1-2001. The overall grade of the walk is determined by the highest classification along the whole track.

Grade 4/6
Hard track

Length 12.6 km One way
Time 5 hrs 30 mins
Quality of track Rough track, where fallen trees and other obstacles are likely (4/6)
Signs Directional signs along the way (3/6)
Experience Required Some bushwalking experience recommended (3/6)
Weather Storms may impact on navigation and safety (3/6)
Infrastructure Limited facilities, not all cliffs are fenced (3/6)
Are you ready to have fun?
Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes are noted and should not be attempted without the overall gate, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

Getting there
Traveling by car is the only practical way to get to Galston Gorge track head (gps: -33.6664, 151.0803). Car: There is free parking available. You can get back from Mt Kuring-gai Railway Station (gps: -33.6538, 151.1367) by car, train or bus. Car: There is free parking available.

Find up to date and more information including: travel directions, weather, park closures and walker feedback at http://wild.tfl.nsw.gov.au

Galston Gorge track head is located at a small car park on the eastern side of Berowra Creek, near the bottom of the gorge on Galston Road. This track head is a good access point for those wanting to do sections of the Great North Walk and is well signposted. Keep an eye open for the local chickens.

0 | Galston Gorge track head
This is a nice little creek crossing on the Great North Walk in Galston Gorge. The small falls are best upstream of the track, even after a small amount of rain. Enjoy the cool shade of the trees at the creek crossing from the track.

1.27 | Gulley Creek Falls
This is a nice little creek crossing on the Great North Walk in Galston Gorge. The small falls are best upstream of the track, even after a small amount of rain. Enjoy the cool shade of the trees at the creek crossing from the track.

1.27 | Ummal Falls
(3.4 km 1 hr 20 mins) Continue straight: From the waterfall, this walk follows the GWK markers out of the gully, initially keeping the waterfall up to your right. The rocky track leads up the side of the hill, moderately steeply at times, for about 600m and then passes along the base of a long rock wall (on your right). At the top of this wall, the walk continues along the track for about 600m, walking along the series of unfenced rock platforms (passing under the high-tension power-lines) to then head down to a section of fenced track. There are some good valley views from this lookout. From the end of the fence, the track soon starts to lead further downhill for about 150m, coming to a clearing on a flat rock platform which is marked with a GWK arrow post. Here, the track turns left and winds quite steeply downhill for about 120m, to then follow a flatter section of track with plenty of grass trees. After about 300m (passing close to the creek a couple of times), the walk crosses a rocky gully (where you can see the creek again on your left). Continuing along the side of the valley for about 250m, the track then leads across another rocky gully and finds another nice spot beside Berowra Creek just beyond. The track continues near the creek (passing under the power lines) for another 300m and climbs down a rock with a couple of metal pegs. Over the next 600m, the track crosses a couple of small timber bridges and passes alongside the lovely creek to then climb up through a crack in a rock, where there is a handrail in place. On the other side of this little climb, the track passes under a small overhang and continues alongside the creek for another 300m, where it comes to an intersection with a track on your right (which leads to a clearing and campsites).

4.69 | Berowra Creek campsite
This shady campsite is located beside the Benowie Track a short distance back from Berowra Creek. The campsite is good for large groups (max 10), mostly flat and has toilets and water. Continue straight: From the waterfall, this walk follows along the creek (passing under the power lines) for another 120m, to then follow a flatter section of track with plenty of grass trees. After about 300m, the track then leads across another rocky gully and finds another nice spot beside Berowra Creek just beyond. The track continues near the creek (passing under the power lines) for another 300m and climbs down a rock with a couple of metal pegs. Over the next 600m, the track crosses a couple of small timber bridges and passes alongside the lovely creek to then climb up through a crack in a rock, where there is a handrail in place. On the other side of this little climb, the track passes under a small overhang and continues alongside the creek for another 300m, where it comes to an intersection with a track on your right (which leads to a clearing and campsites).

4.69 | Berowra Creek campsite track
(1.4 km 25 mins) Continue straight: From the intersection near the campsite, this walk follows the clear track alongside Berowra Creek, whilst keeping the creek to your left. After about 30m, the track crosses a small, flat, timber bridge, then continues to wind along near the creek for about 300m before crossing a large rock. Shortly after, the creek is the only gully with larger boulders and a small waterfall. The gully is marked with a lovely grass tree and boulder forest for about 600m, coming to a small flat area that has been used as a campsite. The track continues mostly flat through the fern and turpentine forest, the track leads to an overgrown but signposted campsite (on your left). The track then crosses a small creek using a timber bridge with a handrail then almost 200m later, the track passes a more open area that has been used as a campsite. The track continues mostly flat through another lovely grass tree forest for about 600m, coming to the edge of Crosslands Youth and Convention Centre. Here the walk climbs the stone steps, to pass another (unfenced) view across the creek. The track continues to wind downhill for about 250m, then heads along the flat, past the 'Crosslands Reserve' sign, to come to the large corrugated iron toilet block.

6.08 | Crosslands Campsite
On the far southern end of Crosslands Reserve is a toilet block and campsites. The campsite is well set up and managed by Hornsby Council. There are picnic tables, electric barbecues, toilets, a children's playground, garbage bins and town water. There is a large flat grassy areas to camp and a single authorised fire pit. The campsite must be booked and fees apply - $9 per night for adults ($5 for children under 4 are free). The gate at the top of the hill is locked at 5.30pm EST and 7.30pm (daylight savings time). A pleasant and well established campsite beside the river. More info.

6.08 | Crosslands southern toilet block
(340 m 5 mins) Veer left: From the toilet block, this walk follows the dirt footpath nearest the creek, towards the main area of Crosslands reserve, whilst keeping the creek to your left. The track soon leads past a 'Boats despatch information sheet and notice' then through the campfire reserve to the main camping area. This walk then continues along the path, passing the 'Climate change and the river' information sign and timber viewing platform. Here the path leads past the picnic shelters and BBQ's to then continue along the concrete footpath. The path leads past another viewing platform (and information sign) then past play equipment and comes to the end of the path where there is a car park (on your right) and sign pointing to 'Crosslands Conventions Centre AND Field Study' across the creek (on your left).

6.39 | Crosslands Reserve
is lovely and long mixed use picnic area, spanning along the edge of Berowra Creek. There are picnic tables, electric barbecues, toilets, car parking, a children's playground, garbage bins, camping area, toilets and town water. The southern part of Crosslands is managed by Hornsby Council and the northern part by the NPWS within the Berowra Valley National Park. The first inhabitants of this area were a subgroup of the Dhungar people who enjoyed the sandstone caves, fish and abundant plant life in the area. It is now managed by Hornsby Shire Council, but in 1856 Matthew Charlton asked Burton Crossland to be caretaker on this area. Burton built a house and a made living by harvesting timber, growing fruit, fishing and boat-building.

6.39 | Optional sidetrip to Crosslands Youth & Convention Centre
(70 m 1 mins) Turn left: From the intersection, this walk follows the 'Crosslands Conventions Centre & Field Study' sign down the rough track directly to the water's edge. Here, you wait for your pre-booked boat ride across Berowra Creek to the convention centre. At the end of this side trip, retrace your steps back to the main walk then Turn left .

6.39 | Crosslands Youth & Convention Centre
Crosslands Youth & Convention Centre is a wonderful facility run by the Seventh-day Adventist Church. The centre provides a large tent-based campsite ($12 pp/pm), large group dorm-style and unit-style accommodation. The units have 5 beds (plus sofa bed) and cost $36 a night per person. The units are equipped with a kitchen, TV, blankets, supplies for hot drinks, pillows, blankets and a balcony with views over Berowra Creek. You will need your own linen and towels. The School holiday block packs range from $5-$10 per person per meal. Breakfast includes juice, fresh fruit, cereal, toast and optional hash browns, eggs and sausages. Dinner includes juice, dinner rolls, salad, pie or sausage (or optional steak) and dessert. No cigarettes, alcohol or other drugs are allowed on site. For more information, call your hosts John & Margaret on (02) 9653 1041

6.39 | Crosslands Carpark
(250 m 4 mins) Continue straight: From the car park, this walk follows the flat dirt path between the road (on the right) and creek (on the left). The path leads through the casuarina trees for about 120m to pass the boat ramp. After another 120m this walk comes to a locked gate at the northern end of the car park. There is also a wetland through the trees to the right worth noticing.

6.64 | Northern end of Crosslands Carpark
(260 m 4 mins) Continue straight: From the northern end of Crosslands Carpark (at the far northern end of Somerville Rd, Hornsby Heights), this walk follows the Newcastle' arrow on the large 'Great North Walk' sign around the locked gate and along the sealed old road. The walk continues along the old road for just over 150m passing 4 picnic tables to come to a y-intersection. At the intersection this walk veers right, past the 'Place of Winds' sign and wellland (on right). The car park continues along the road for a little longer, coming to an intersection marked with a large 'Crosslands' information board and 'Great North walk' sign. This is just on the edge of the northern picnic area, not far from the toilet block.

6.9 | Crosslands North Picnic area
The northern section of Crosslands is in Berowra Valley NP and is a less formal picnic area compared with the southern area. There is a toilet block and a few sandy beaches - best to bring your own water. Remember to follow the 'Code of Conduct' for visitors to National Parks. Check the Berowra Creek NP website for updates.

6.9 | Crosslands North
The northern section of Crosslands is in Berowra Valley NP and is a less formal picnic area compared with the southern area. There is a toilet block and a few sandy beaches - best to bring your own water. Remember to follow the 'Code of Conduct' for visitors to National Parks. Check the Berowra Creek NP website for updates.
This small signposted campsite sits on a flat grassy clearing in a small casuarina forest which provides plenty of shade. There is a small fireplace set up. This creek-side campsite is a good spot for those wanting to get the most out of a relaxing, overnight camp, just a short stroll to Berowra Creek and the main spine of the Great North Walk. This creek-side campsite, open as your own water, as the creek water is not suitable for drinking.

8.41 | Calna Creek Campsite (south)
(1.4 km 27 mins) Continue straight: From the signposted camping area, this walk follows the clear flat track upstream, keeping the wide Calna Creek to your right. After just 25 m, the track leads over flat timber bridge then continues along the mostly flat for another 400 m, passing a few sandy beaches to come to the point where the track leads away from open valley views and into dense forest. Here the track leads up a rocky rock platform, with naturally carved holes, to fall about 8 m to the shallow pool and boulders below. The track passes the top of the fall and does not provide a good view of the face of the fall, but it is still a very pleasant spot.

10.16 | Lyrebird Waterfall
This informally named waterfall is found on Lyrebird Gully creek about 300 m upstream of its confluence with Calna Creek. The base of the fall is partially fenced with a timber handrail where the water flows over the solid rock platform, with naturally carved holes, to fall about 8 m to the shallow pool and boulders below. The track passes the top of the fall and does not provide a good view of the face of the fall, but it is still a very pleasant spot.

11.54 | Lyrebird Clearing
(530 m 12 mins) Continue straight: From the clearing, this walk follows GNW arrow post uphill along the sealed management trail, from beside the tall green sewage vent. The trail winds steeply uphill for about 300 m then, behind the houses it bends right, mostly flattening out at the large ‘To the Great North Walk’ sign. Here the walk continues a short distance further to head around the locked ‘Lyrebird Gully Track’ gate coming to Glenview Rd (just beside the intersection with the Pacific Hwy).

12.07 | Int of Glenview Rd and the Pacific Hwy
(520 m 9 mins) Continue straight: From the locked gate (near the intersection of ‘Glenview Rd’ and the Pacific Hwy), this walk crosses ‘Glenview Rd’ and follows the footpath beside the Pacific Hwy to come to the base of the pedestrian bridge (just before the Aldi shopping complex). From the bottom of the footbridge near the Aldi shopping complex, this walk follows the ramp as it zigzags up to the bridge that then leads over the Pacific Hwy. On the other side of the bridge, this walk turns left then crosses the road, following the footpath down beside the road. The walk soon crosses Glenview Rd at the traffic lights (intersection with the Pacific Hwy). Here the walk continues along the footpath between the Pacific Hwy and the railway line for about 200 m to come to the entrance of ‘Mt Kuring-gai Station’. Here the walk heads down through the tunnel, as it zigzags up to the top of the hill and soon passes beside a rock wall (on your left) and a section of handrail and steep valley (on your right). Here the rocky track continues along side of hill for about 250 m before bending right and leading down to and across a short section of green timber handrail, then follows the GNW arrow post across Lyrebird Gully creek on the sandstone platform. Here the track leads up the other side of the gully, up a series of rock and timber steps for about 300 m to pass a short section of handrail. Just past this handrail, the track leads along a rock wall to find a ‘Great North Walk register’ box on a pole. After filling in your intentions (and reading others entries), this walk continues up the stone steps with a handrail, where the track bends left and along the side of the hill for about 150 m to cross a short flat timber bridge over a concrete channel. Here the track leads up the short hill, bends left and soon comes to a clearing to turn right to the ‘The Great North Walk’ sign. Here the track continues for another 120 m through the larger clearing to come to the start of a sealed management trail, beside the tall green sewage vent.

8.01 | Calna Creek Campsite (north)
This a quaint little camping area, located on the Mt Kuring-gai access track to the Great North Walk, on the banks of Calna Creek. This campsite provides plenty of room for a few tents, and also a fire scar with logs for seating. Carry in your own water as the salty creek water is not suitable for drinking.

8.03 | Calna Creek Campsite (north)
(400 m 9 mins) Continue straight: From the camping area, this walk follows the track south along the clear track, keeping Calna Creek to your right. The track passes under a ‘Rockfall information sign then comes to a long, metal footbridge. The walk crosses the bridge over Calna Creek and comes to a signposted intersection, with a ‘Bush Supermarket’ information sign.

7.9 | Int of GNW and Lyrebird Gully Boards
(110 m 2 mins) Turn right: From the intersection beside the Calna Creek bridge, this walk follows the ‘Mt Kuring-Gai’ sign along the clear track, keeping Calna Creek (through the trees) to your right. After about 100 m, the track passes the southern tip of the saltmarsh (on your left) and comes to a large clearing and campsite (also on your left), surrounded by casuarina trees.

8.0 | Calna Creek Campsite (north)
This is a quaint little camping area, located on the Mt Kuring-gai access track to the Great North Walk, on the banks of Calna Creek. This campsite provides plenty of room for a few tents, and also a fire scar with logs for seating. Carry in your own water as the salty creek water is not suitable for drinking.

8.05 | Calna Creek Campsite (north)
(220 m 4 mins) Turn right: From the intersection at the northern picnic area, this walk follows the ‘Great North Walk’ sign along the timber boardwalk. The timber boardwalks winds through the mangroves for about 60 m, coming to a firm dirt track which leads for another 70 m to a second timber boardwalk. The second boardwalk leads, for another 70 m, past ‘Mangrove Food Cycle’ information signs to come to a 3-way intersection in the boardwalk with the estuaries viewing platform boardwalk (on your left).

7.12 | Berowra Creek (Estuaries) Lookout
The Estuary lookout over Berowra Creek is found at the end of the wheelchair-accessible walk in Crosslands area. The timber lookout platform provides views great views over Berowra Creek, the timber fence is 95 cm high. There are also information signs about the local flora and fauna and the ‘Original Inhabitants’. There are two timber bench seats encouraging you to take some time to soak up this view.

7.12 | Estuaries viewing platform
(780 m 20 mins) Continue straight: From the intersection at the estuaries viewing platform, this walk follows the timber ramp down to the dirt track and heads past the ‘unsuitable for wheelchair access’ sign. The track leads alongside the wide creek for about 200 m to the ‘All creatures great and small’ information sign, then down a little way further to head along a short section of timber boardwalk. About 100 m further along the rocky track, this walk comes to a lookout and a ‘Catch the Threats’ information sign, where the track continues past the bench seat and alongside the creek to the ‘The Rock Club’ information sign. The track then leads among some grass tress for just over 100 m to the ‘Bush Supermarket’ information sign. Just past this sign, the track begins to climb fairly steeply up the stone and timber steps to the ride line, marked with a GNW arrow and a ‘Stop! Look! Listen! and Smell!’ information sign.

Continue straight: From the ridge line, this walk follows the GNW arrow east downhill, initially keeping the ‘Stop! Look! Listen! and Smell!’ information sign on your right. The track bends left and follows the timber steps as the track winds steeply down the side of the hill. Near the bottom of the hill, the track passes under a ‘Rockfall information sign then comes to a long, metal footbridge. The walk crosses the bridge over Calna Creek and comes to a signposted intersection, with a ‘Frailage Marsh’ information sign.

Great North Walk register box on a pole. After filling in your intentions (and reading others entries), this walk continues up the stone steps with a handrail, where the track bends left and along the side of the hill for about 150 m to cross a short flat timber bridge over a concrete channel. Here the track leads up the short hill, bends left and soon comes to a clearing to turn right to the ‘The Great North Walk’ sign. Here the track continues for another 120 m through the larger clearing to come to the start of a sealed management trail, beside the tall green sewage vent.
