

Henry Head Circuit

3 hrs

Hard track

7.4 km Circuit

▲ 182m

This walk has a lovely mix of natural and war history combined within the scenic Botany Bay National Park. The track follows beaches and cliff tops as it visits World War One and Two gun and lookout stations. The side trip to the coastal cemetery is worthwhile, giving a glimpse into lives from the past. The Jennifer Street section of this circuit allows access through a section of endangered native Banksia scrub that once occupied a much larger part of the Sydney region. A varied and interesting day out in the Botany Bay National Park.

Botany Bay National Park

Little Congwong Beach

Little Congwong Beach, located at La Perouse, is a sheltered sandy beach that has been described as one of the most beautiful beach oases in Sydney. Little Congwong beach has also been used for over 40 years as an unofficial and secluded nude beach. If you see any offensive behaviour please call Crime Stoppers on 1800 333000 or the Maroubra Police on 02 9349 9299. This beach is very popular on summer weekends and has limited shade in the afternoon. [More info.](#)

Browns Rock

Browns Rock is a popular fishing spot at La Perouse, with an unfenced shelf of rock and concrete from which to cast fishing rods. Unfortunately, this area suffers from littering - Please help by carrying out your own rubbish and a few extra bits where safe (the rangers do a great job, but it is hard to keep up). [More info.](#)

Henry Head

The Henry Head Battery is located on the northern side of the entrance to Botany Bay at Henry Head. The battery was constructed on an unfenced headland between 1892 and 1895 and operated until 1910 when it was closed down. The battery and observation posts was re-utilised during World War Two to defend against approaches to Botany Bay. The battery consisted of two disappearing guns, ammunition storage and observation posts. The underground bunker and tunnel complex consisted of vaulted ammunition storage rooms with double walls and ceilings. The doubling-up of walls and ceilings was a preventative measure meant to stop the walls from collapsing in the event of a direct hit. The battery is currently not in use. The white tower on the battery is the Endeavour Tower, not a lighthouse as such, but a red marker light nonetheless. [More info.](#)

Cape Banks

Cape Banks on the northern side of the entrance to Botany Bay, offers possibly the best view in Botany Bay National Park. From the unfenced cliff top, you can watch the power of the ocean as waves crash into the sandstone rock face below, or watch boats of all shapes and sizes, sail peacefully across the sheltered waters of the bay. If you are lucky, you can enjoy the spectacle of migrating Humpback and Southern Right whales reasonably close to shore, spouting and sometimes breaching as they make their way northward and southward in pods of three or four. The shipwreck of the SS Minmi can be seen at low tide, lying on rocks on the western side of Cape Banks. There are concrete foundations of buildings remaining on Cape Banks, from when World War Two servicemen were stationed there. [More info.](#)

Before You walk

Bushwalking is fun and a wonderful way to enjoy our natural places. Sometimes things go bad, with a bit of planning you can increase your chance of having an enjoyable and safer walk. Before setting off on your walk check

- 1) Weather Forecast ([BOM Metropolitan District](#))

- T** Take adequate supplies of food, water, navigation and first aid equipment.
- R** Register your planned route and tell friends and family when you expect to return.
- E** Emergency beacon (PLB's) should be carried on walks with significant gaps in mobile coverage (check terrain profile).
- K** Keep to your planned route and follow the map and walking trails.

The hospital was built far enough from the city to provide quarantine, and for this reason, the hospital in time became an infectious diseases hospital, also treating patients with influenza, bubonic plague, typhoid fever and leprosy.
