This section of the Great North Walk starts from Hornsby train station and winds down along the Blue Gum Walk into Fishponds and along Berowra Creek. The walk passes through the Tunks Ridge Reserve and then into Galston Gorge. From here the walk keeps following the Berowra Creek through the Crosslands campsite to Calna creek, and then up to Mt Kuring-gai.

Note this walk was re-routed in early 2016 to go via the streets of Hornsby Heights. This re-route is due to the multi-agency decision to close the Fishponds to Steele Bridge section of the Benowie Track. This decision has upset many people and the protest continues.
Berowra Valley Bushland Park

'Berowra Valley Bushland Park' is also known as Rosemead Rd Park and is found at the bottom end of Rosemead Rd, Hornsby. This is an open area park surrounded by shady eucalyptus trees, making a pleasant spot to rest on a walk. It has a picnic table with bench seats, and a sheltered free electric BBQ. There is a water tap in the park, near the road. There is also a 'Welcome to Old Mans Valley' information sign with information about the traditional country of the Darug and Guringai peoples.

Fishponds

Fishponds is a long waterhole on Berowra Creek in Berowra Valley Regional Park. The waterhole is lined with tall cliffs and a few sandstone caves. At the southern end, there are stepping stones to help cross the creek, and a small timber bridge at the northern end. This is a beautiful spot and a worthy place to rest and enjoy the water passing by. The waterhole is fairly popular with local teens in summer, cooling off. Swimming and jumping at the Fishponds waterhole has resulted in fatalities - please heed the signs and Cora's parents' plea and enjoy the water from the edge.

Historic Military 'Steele' Bridge

This large steel and timber bridge spans Berowra Creek north of Fishponds. The creek is fairly wide at this point and the bridge provides a great view of the sandstone overhangs along the creek's edge. The bridge was commissioned in 1965 to allow access for fire trucks. The bridge was designed by Major General Sir Clive Steele in 1942. Bridges of this type were critical during the WWII South West Pacific campaigns. The bridge is designed on the Warren truss style and is one of only 4 'Steele' bridges still in use in NSW. More info.

Tunks Ridge Rest Area

Tunks Ridge Rest Area is a large, shady and gently sloping campsite at the junction of three management trails. There is no water or other facilities (you will need to carry your own in). A sign at the top of the campsite reminds campers that there is a one night limit and that it is a fuel stove only area (no campfires). Please note that the composting toilet has been removed and no longer available.

Galston Gorge track head

Galston Gorge track head is located at a small car park on the eastern side of Berowra Creek, near the bottom of the gorge on Galston Road. This track head is a good access point for those wanting to do sections of the Great North Walk and is well signposted. Keep an eye open for the local chickens.

Before You walk

Bushwalking is fun and a wonderful way to enjoy our natural places. Sometimes things go bad, with a bit of planning you can increase your chance of having an enjoyable and safer walk.

Before setting off on your walk check

1) Weather Forecast (BOM Metropolitan District)
2) Fire Dangers (Greater Sydney Region)
3) Park Alerts (Berowra Valley National Park)
4) Research the walk to check your party has the skills, fitness and equipment required
5) Agree to stay as a group and not leave anyone to walk solo

Think before you TREP

The 'Think before you TREK' program developed by NSW Police & NPWS promotes the benefits of planning ahead for your bushwalking trip by using an easy to remember acronym:

T Take adequate supplies of food, water, navigation and first aid equipment.
R Register your planned route and tell friends and family when you expect to return.
E Emergency beacon (PLB's) should be carried on walks with significant gaps in mobile coverage (check terrain profile).
K Keep to your planned route and follow the map and walking trails.

Topo Maps

The maps provided on wildwalks are helpful, but there are times where you may need maps covering a broader area. Maps that cover this walk include:

1:25 000 Map Series: 91304S HORNSBY
1:40 000 Map Series: CMA Ku-ring-gai Chase National Park
Tourist Map
1:100 000 Map Series: 9130 SYDNEY

Grade

This walk has been graded using the AS 2156.1-2001. The overall grade of the walk is determined by the highest classification along the whole track.

Grade 4/6

Hard track

Length 22.3 km One way
Time 9 hrs
Quality of track Rough track, where fallen trees and other obstacles are likely (4/6)
Signs Directional signs along the way (3/6)
Experience Required Some bushwalking experience recommended (3/6)
Weather Storms may impact on navigation and safety (3/6)
Infrastructure Limited facilities, not all cliffs are fenced (3/6)
Are you ready to have fun? Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are included in this walk at overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

Getting there
Hornsby Train Station (gps: -33.7035, 151.098) by car, train or bus. Car: There is free parking available.
You can get back from Mt Kuring-gai Railway Station (gps: -33.6538, 151.1367) by car, train or bus. Car: There is free parking available.

Find out to date and more information including; travel directions, weather, park closures and walker feedback at http://wild.tl/htmkg

0 | Hornsby Train Station (720 m 14 mins) From the western side of Hornsby Railway Station, this walk first crosses the bus lane, then follows the large 'To the Great North Walk' sign across the Station St pedestrian crossing; and then across the Pacific Highway at the traffic lights. Here the walk turns right and follows the footpath (across Dural Lane) past some shops to cross Dural St. The walk then turns left and follows the footpath down along Dural St, past a few more shops. Continuing past the units, this walk then turns right onto Quarry Rd and follows the road down the gently hill for about 180m to an intersection with 'Old Mans Valley' management trail and locked gate (on your right). Continue straight: From the intersection, this walk follows Quarry Road down the gentle hill, leaving the houses behind to come to an intersection with a track, signposted with a Great North Walk' sign (on your left). Continue straight: From the intersection, this walk follows the Great North Walk' arrow down the narrow track past a few houses off to the left. The trail then bends right and leads across Old Mans Creek using some concrete stepping stones. The walk then continues by heading up the moderately steep hill and then through a thick blue gum and bracken fern forest. The wide trail leads to the top of the hill then bends left, (ignoring the track which continues to climb over a saddle). The trail leads down the gentle hill, through the turpentine forest for just over 300m to find an intersection with narrower track on the right, marked with arrow posts.

1.25 | Int of Blue Gum Walk and Joes Mountain Service Tra (30 m 1 mins) Veer right: From the intersection, the walk follows the Great North Walk' arrow down the narrower track a short distance to find a three-way intersection marked with a large 'Great North Walk' signpost.

1.8 | Optional sidetrip to Fishponds crossing (340 m 8 mins) Continue straight: From the intersection, this walk follows the Fishponds' sign along the flat narrow track past the Berowra Valley Regional Park' sign. The track soon bends left (passing along the top of an unfinished cliff) and steep steps down over a small flight of steps (with a handrail). The rocky track then leads down along the side of the valley for just over 100m to cross a timber foot bridge. The track then continues for another 70m to find a fenced rock platform and signposted intersection. Turn right: From the lookout, this walk follows the 'Galston Gorge' sign along the fenced rock shelf (keeping the fence to your left). The track leads down the rocky steps to the edge of Berowra Creek. The walk crosses the creek using the stepping stones, and comes to a small cave on the other side. This creek may be impassable after rain. At the end of this side trip, retrac your steps back to the main walk then Veer left.

2.18 | Fishponds (1.6 km 36 mins) Fishponds is a long waterhole on Berowra Creek in Berowra Valley Regional Park. The waterhole is lined with tall cliffs and a few sandstone caves. At the southern end, there are stepping stones to help cross the creek, and a small timber bridge at the northern end. This is a beautiful spot and a worthy place to rest and enjoy the water passing by. The waterhole is fairly popular with local swimmers in summer. Located in an extraordinary gorge, this popular waterhole has resulted in fatalities - please heed the signs and Cora's parents' plea and enjoy the water from the edge.

2.5 | Int of Clarinda St and waterfall track (1.9 km 44 mins) Turn sharp right: From the intersection, this walk follows the 'Alternative Route' arrow on the GNW sign. The track dips before heading steeply uphill, zigzagging in several sections. The walk leads you up a large metal staircase to the top of the cliffs, coming to the intersection of Manor Rd and Dilkera Cl.
Continue straight: From the intersection, this walk follows Manor Rd as it initially heads up a gentle hill. After about 600m, Manor Road turns to skirt about Mount Williga Hospital, and the road changes name to Rosomond St. The walk continues along to the intersection with Stewart Ave on the left (this is a four-way intersection, with Carrington Rd on the right).
Continue straight: From the intersection, this walk heads north along Rosomond St towards the Great North Walk arrow. The walk then turns left into Clarinda St and follows it to the end of the road, to find the 'Clarinda Wetlands' sign.

4.06 | End of Clarinda St (1.1 km 24 mins) Turn right: From the end of Clarinda St Hornsby, this walk heads around the green gate with the Berowra Valley Regional Park sign on it, keeping the 'Clarinda wetlands' to the left. The walk follows the management trail, which soon bends left and gently winds through the bushland. There are some interesting rock formations on the right and the occasional valley view on the left. The track is fairly flat most of the way, until a left-hand bend that leads down to cross a small creek, and then up the other side of the valley. Once the track flattens out again, it comes to an intersection with the Simon Pl management trail on the right, at a fairly large clearing. Continue straight: From the intersection, this walk follows the flat management trail, heading away from Simon Place past the 'Berowra Valley Regional Park', 'Dogs Prohibited' sign. The walk gently meanders along the trail, enjoying the ferns and sandstone rocks for a while until coming to a 'Great North Walk' sign highlighting the intersection with small track on the left.

5.14 | Int of Clarinda St and waterfall track (470 m 13 mins) Turn left: From the intersection, this walk heads down the hill along the narrow track, following the 'Great North Walk' sign. The track is rocky and steep in a few places. Take care as the track turns at the top of some smaller cliffs while winding down the hill. Steps have been made from rocks and logs, making this track a bit more gentle, and there are some carved steps in the bottom of the steeper sections. The track leads down onto some steps and climbs up onto some stairs, the walk crosses the creek on the rocks just in front of the waterfall.
Veer right: From the waterfall, this walk climbs the stone stairs (keeping the waterfall initially on the left) and then turns right, heading up out of the gully. Once at the top of the stairs, the walk heads through the bush until soon coming to a 'T intersection with the Stewart St management trail, signposted with a large 'Great North Walk' sign.

5.61 | Int of Stewart Ave service trail and waterfall trail (400 m 8 mins) Turn right: From the intersection, this walk follows the 'Galston Gorge 4km' arrow down the hill along the wide management trail. For the most part, the trail gently heads downhill then bends around to the left, leading to an intersection just before Steele Bridge.

6 | Historic Military 'Steele' Bridge This large steel and timber bridge spans Berowra Creek north of Fishponds. The creek is fairly wide at this point and the bridge provides a great view of the sandstone overhangs along the creek's right bank. The bridge was commissioned in 1965 to allow access for fire trucks. The bridge was designed by Major General Sir Clive Steele in 1942. Bridges of this type were critical during the WWII South West Pacific campaigns. The bridge is designed on the Warren truss style and is one of only 4 'Steele' bridges still in use in NSW. More info.

6 | Steele Bridge (1.8 km 44 mins) Veer right: From the intersection, this walk crosses the 'Historic Military Steele Bridge' and turns right to follow the 'Crosslands' sign uphill along the wide management trail. After about 200m, the trail becomes steeper (and is concreted for about 150m, then flattens out just before the bend. The trail continues to climb (enjoying the valley views to the right) for another 400m, after which the trail becomes quite steep again for about 600m (here the trail is sealed then concreted in two sections). From the top of the second concreted section, the trail leads gently uphill for just shy of 500m to the well-signposted 'Tunks Ridge Rest Area', where a sign points back down the trail to 'Stewart St Hornsby Trackhead'.

7.78 | Tunks Ridge Rest Area Tunks Ridge Rest Area is a large, shady and gently sloping campsite at the junction of three management trails. There is no water or other facilities (you will need to carry your own in). A sign at the top of the campsite reminds campers that there is one night limit and that it is a fuel stove only area (no campfires). Please note that the composting toilet has been removed and no longer available.
7.78 | Tunks Ridge Rest Area
(1.4 km 28 mins) Turn right: From the top of the rest area, this walk follows the 'Galston Gorge' AND 'Crosslands Reserve' signs along the wide management trail, keeping the valley to your right. The trail winds along the north side of the ridge (along the base of a long rock wall, up to your left) for about 700m, until the trail comes to the top of the ridge. From here, the trail leads for another 500m, down across a saddle then up to a clear Y-intersection. The trail takes the left branch and passes a few 'Regeneration Area' signs over about 250m, coming to a well-signposted intersection with narrower track (on your left), partway around the right-hand bend.

9.14 | Int of GNW and Galston Gorge track
(550 m 16 mins) Turn left: From the intersection, the walk follows the GNW markers out of the gully, initially keeping the waterfall up to your right. For about 600m and then passes along the base of a long rock wall (on your right). At the end of this wall, the walk climbs the carved steps. The walk continues along the track for about 600m, walking along the series of unfenced rock platforms (passing under the high-tension power-lines) to then head down to a section of fenced track. There are some good valley views from this lookout. From the end of the fence, the track soon starts to lead further downhill for about 150m, coming to a clearing on a flat rock platform which is marked with a GNW arrow post. Here, the walk turns left and winds quite steeply downhill for about 120m, to then follow a flatter section of track with plenty of 300m (passing over the creek a couple of times), the walk crosses a rocky gully (where you can see the creek again on your left). Continuing along the side of the valley for about 250m, the track then leads across another rocky gully and finds another nice spot to stop and enjoy the views. After another track crosses a small creek (passing under the power lines) for another 300m and climbs down a rock with a couple of metal pegs. The final 100m of the track leads across a mossy and rocky gully. Once across this gully, you reach a small flat rock platform. The walk then bends right (ignoring the steep rocky track as it zigzags down towards the valley. About 40m down the hill, the track comes to a 'Great North Walk - Walkers Registration' box. After leaving your comments, this walk continues downhill, passing through a crack in the rock where the walk bends right and eventually comes to a footpath. This footpath leads for another 500m, down across a saddle then up to a clear Y-intersection, comes to a fence. The fence guides down a steep section, passing a cave, and comes to the top of a metal peg ladder. This walk climbs down the ladder, then follows the rock wall (keeping the road to your left), heading down through a crack and along another fence, then coming to a flat area beside the road. Here the walk follows the GNW arrow to the right and down under the bridge. The walk crosses the creek, usually a bit more than ankle deep. This creek maybe impassable after rain - the road bridge above offers an alternate way across, but watch and listen for traffic. On the other bank, the walk turns right to follow the track uphill. The track well-formed track climbs to the well-signposted and paved Galston Gorge headtrack, where a 'Fishing Spoons' sign points back down the track.

9.68 | Galston Gorge track head
Galston Gorge track head is located at a small car park on the eastern side of Berowra Creek, near the bottom of the gorge on Galston Road. This track head is a good access point for those wanting to do sections of the Great North Walk and is well signposted. Keep an eye open for the local chooks.

9.68 | Galston Gorge track head
(1.3 km 41 mins) Turn left: From the Galston Gorge track head, this walk follows the 'Great North Walk' sign along the timber boardwalk. This boardwalk with the estuaries viewing platform boardwalk (on your left). Food Cycle' information signs to come to an intersection in the river valley. About 40m down the hill, the track comes to a 'Great North Walk - Walkers Registration' box. After leaving your comments, this walk continues downhill, passing through a crack in the rock where the walk bends right and eventually comes to a footpath. This footpath leads for another 500m, down across a saddle then up to a clear Y-intersection, comes to a fence. The fence guides down a steep section, passing a cave, and comes to the top of a metal peg ladder. This walk climbs down the ladder, then follows the rock wall (keeping the road to your left), heading down through a crack and along another fence, then coming to a flat area beside the road. Here the walk follows the GNW arrow to the right and down under the bridge. The walk crosses the creek, usually a bit more than ankle deep. This creek maybe impassable after rain - the road bridge above offers an alternate way across, but watch and listen for traffic. On the other bank, the walk turns right to follow the track uphill. The track well-formed track climbs to the well-signposted and paved Galston Gorge headtrack, where a 'Fishing Spoons' sign points back down the track.

13.88 | Berowra Creek campsite
This shady campsite is located on the Benowie Track a short distance from Berowra Creek, south of the Crosslands Reserve. Providing plenty of shade and the creek water is brackish at this point, so it is not drinkable (except after heavy rain and lower tide, but then the water is more polluted) - best to bring your own water.

13.88 | Berowra Creek campsite track
(1.4 km 33 mins) Continue straight: From the intersection near the campsite, this walk follows the 'Great North Walk' sign along the timber boardwalk. This is a pleasant and well established campsite beside the river. On the far southern end of Crosslands Reserve is a toilet block and campsite. This is just on the edge of the northern picnic area, not far from the toilet block.

16.07 | Crosslands
This walk then continues along the path, passing the 'Climate change and the river' information sign and timber viewing platform. Here the path changes and the river winds quite steeply downhill, passing through a crack in the rock where the walk bends right, then heads down to a straight downhill section. This section leads across another gully, with a small creek. After another 250m of walking through the fern and temperate forest, the track leads to an overgrown but signposted campsite (on your left). The track then crosses a small creek using a timber bridge with a handrail then almost 200m later, the track passes a more open area that has been used as a campsite. The track continues mostly flat for a further 250m. After a large tree (and therefore a good spot for the 'Crosslands Youth and Convention Centre'). Here the walk climbs the stone steps, to pass another (unfenced) view across the creek. The track continues to wind downhill for another 250m, then heads along the flat, past the 'Crosslands Reserve' sign, to come to the large corrugated iron toilet block.

15.74 | Crosslands Campsite
On the far southern end of Crosslands Reserve is a toilet block and campsite. The campsite is well set up and managed by Hornsby Council. There are picnic tables, barbecues, toilets, a children's playground, garbage bins, fishing and boat-building. This walk takes the 'Boats to wind downhill for another 250m, then heads along the flat, past the 'Crosslands Reserve' sign, to come to the large corrugated iron toilet block. This is a pleasant and well established campsite beside the river. More info.

15.74 | Crosslands southern toilet block
(340 m 5 mins) Veer left: From the toilet block, this walk follows the dirt footpath nearest the creek, towards the main area of Crosslands Reserve, whilst keeping the creek to your left. The track soon leads past a 'Boats destroyed' information sign, then past the only 'Authorised fire pit' and main camping area. This walk then continues along the path, passing the 'Climate change and the river' information sign and timber viewing platform. Here the path changes and the river winds quite steeply downhill, passing through a crack in the rock where the walk bends right, then heads down to a straight downhill section. This section leads across another gully, with a small creek. After another 250m of walking through the fern and temperate forest, the track leads to an overgrown but signposted campsite (on your left). The track then crosses a small creek using a timber bridge with a handrail then almost 200m later, the track passes a more open area that has been used as a campsite. The track continues mostly flat for a further 250m. After a large tree (and therefore a good spot for the 'Crosslands Youth and Convention Centre'). Here the walk climbs the stone steps, to pass another (unfenced) view across the creek. The track continues to wind downhill for another 250m, then heads along the flat, past the 'Crosslands Reserve' sign, to come to the large corrugated iron toilet block.

16.07 | Crosslands Carpark
(250 m 4 mins) Continue straight: From the car park, this walk follows the flat dirt path between the road (on the right) and creek (on the left). The path leads through the casuarina trees for about 120m to pass the boat ramp. After another 120m this walk comes to a locked gate at the northern end of the car park. There is also a wetland through the trees to the right worth noticing.

16.32 | Northern end of Crosslands Carpark
(260 m 4 mins) Continue straight: From the northern end of Crosslands car park (at the far northern end of Somerville Rd, Hornsby Heights), this walk continues along the old road for a little longer, coming to an intersection marked with a large 'Crosslands' information board and 'Great North walk' sign. This is just on the edge of the northern picnic area, not far from the toilet block.

16.58 | Crosslands North Picnic area
The northern section of Crosslands is in Berowra Valley NP and is a less formal picnic area compared with the southern area. There is a toilet block and a few picnic shelters with direct access to the water. Here you will find a few picnic tables and shelters, as well as garbage bins. The eastern side is home to a boardwalk exploring the estuarine woodland. A pleasant area to rest and enjoy the water. Fires are only permitted in formally established fire places .

16.58 | Crosslands North
(220 m 4 mins) Turn right: From the intersection at the northern picnic area, this walk follows the 'Great North Walk' sign along the timber boardwalk. The water is brackish at this point, so it is not drinkable (except after heavy rain and lower tide, but then the water is more polluted) - best to bring your own water.

7.78 | Tunks Ridge Rest Area
(1.4 km 28 mins) Turn right: From the top of the rest area, this walk follows the 'Galston Gorge' AND 'Crosslands Reserve' signs along the wide management trail, keeping the valley to your right. The trail winds along the north side of the ridge (along the base of a long rock wall, up to your left) for about 700m, until the trail comes to the top of the ridge. From here, the trail leads for another 500m, down across a saddle then up to a clear Y-intersection. The trail takes the left branch and passes a few 'Regeneration Area' signs over about 250m, coming to a well-signposted intersection with narrower track (on your left), partway around the right-hand bend.
16.8 | Berowra Creek (Estuarie) Lookout
The Estuarie lookout over Berowra Creek is found at the end of the wheelchair-accessible walk in Crosslands area. The timber lookout platform provides views great views over Berowra Creek, the timber fence is 95cm high. There are also information signs about the local flora and fauna and the 'Original Inhabitants'. There are two timber bench seats encouraging you to take some time to soak up this view.

16.8 | Estuaries viewing platform
(780 m 20 mins) Continue straight: From the intersection at the estuaries viewing platform, this walk follows the timber ramp down to the dirt track and heads past the 'unsuitable for wheelchair access' sign. The track leads alongside the wide creek for about 200m to the 'All creatures great and small' information sign, then down a little way further to head along a short section of timber boardwalk. About 100m further along the rocky track, this walk comes to a lookout and a 'Catch the Threats' information sign, where the track continues past the bench seat and alongside the creek to the 'The Rock Club' information sign. Then leads among some grass tress for just over 100m to the 'Bush Supermarket' information sign. Just past this sign, the track begins to climb fairly steeply up the stone and timber steps to the ridge line, marked with a GNW arrow and a 'Stop! Look! Listen! and Smell!' information sign.

Continue straight: From the ridge line, this walk follows the GNW arrow east downhill, initially keeping the 'Stop! Look! Listen! and Smell!' information sign on your right. The track bends left and follows the timber steps as the track winds up through the side of the hill. Near the bottom of the hill, the track passes a 'Rock n Roll' information sign then comes to a long, metal footbridge. The walk crosses the bridge over Calna Creek and comes to a signposted intersection, with a 'Fragnile Marsh' information sign.

17.58 | Int of GNW and Lyrebird Gully tracks
(110 m 2 mins) Turn right: From the intersection beside the Calna Creek bridge, this walk follows the 'Mt Kuring-Gai' sign along the clear track, keeping Calna Creek (through the trees) to your right. After about 100m, the track passes the southern tip of the saltmarsh (on your left) and comes to a large clearing and campsite (also on your left), surrounded by casuarina trees.

17.69 | Calna Creek Campsite (north)
This is a small, little campsite, located on the Mt Kuring-gai access track to the Great North Walk, on the banks of Calna Creek. This campsite provides plenty of room for a few tents, and also a fire scar with logs for seating. Carry in your own water as the salty creek water is not suitable for drinking.

17.69 | Calna Creek Campsite (north)
(400 m 9 mins) Continue straight: From the campsite, this walk follows the track south along the clear track, keeping Calna Creek to your right. The track leads along the flat for about 100m to the creek to the right then down a short timber staircase. The rocky track continues for another 180m, stepping over a fallen tree, to then cross a timber bridge (with handrails) over a small tidal creek. Here the track leads through flat grassy area and casuarina forest for about 100m to come to a signposted camping area.

18.09 | Calna Creek Campsite (south)
This small signposted campsite sits on a flat grassy clearing in a small casuarina forest which provides plenty of shade. There is a small fire place ready set up. This is a great spot for those wanting to get an early morning out of a relaxing, overnight camp, just a short stroll to Berowra Creek and the main spine of the Great North Walk. Bring your own water, as the creek water is not suitable for drinking.

(1.6 km 33 mins) Continue straight: From the signposted campsite, this walk follows the clear flat track upstream, keeping the wide Calna Creek to your right. After just 25m, the track leads over flatty timber bridge then continues along the mostly flat track for another 400m, passing a few sandy beaches to come to a point where the track leads up away from open valley views and into the denser forest. Here the walk leads up the rocky track among the ferns and mossy boulders for 400m to follow a GNW arrow post across Calna Creek using boarders with carved steps. This creek crossing and other crossing further up the valley can become impassable after heavy or prolonged rain. After about 70m, the track turns left along a step path to follow some stone steps steeply as they zigzag up the hill a fair short distance. This track then mostly flattens out and leads along the side of the hill for about 200m, to then head up another shorter but steep hill. About 40m past the top of this climb (just past a small overhang), this walk leads under a large sandstone overhang, the large of a few Lyrebird gully caves in the area.

19.71 | Lyrebird Caves
The Lyrebird caves are a series of notable sandstone overhangs on the eastern side of Lyrebird Gully. There are 3 main overhangs, with the larger (more northern) one providing significant shelter. The larger cave has a fairly flat base in the centre and provides a pleasant place to rest on a hot or rainy day.

19.71 | Lyrebird Caves
(140 m 4 mins) Continue straight: From the cave, this walk follows the track out of the cave to head along the side of the creek, keeping the valley to your right. After about 70m, the track leads through a smaller cave, then just a few metres further through another (but larger) sandstone overhang. The track then continues along the side of the hill for another 50m before bending right and leading down the timber steps to find a 'The Great North Walk' sign on the handrail. This is at the top of Lyrebird Gully waterfall.

19.85 | Lyrebird waterfall
This informally named waterwall is found on Lyrebird Gully creek about 300m upstream of its confluence with Calna Creek. The top of the fall is partially fenced with a timber handrail where the water flows over the solid rock platform, with naturally carved holes, to fall about 8m to the shallow pool and boulders below. The track passes the top of the fall and does not provide a good view of the face of the fall, but it is still a very pleasant spot.

19.85 | Lyrebird Waterfall
(1.4 km 27 mins) Continue straight: From the top of the Lyrebird Gullies falls, this walk follows the 'The Great North Walk' sign and the handrail across the creek again using boulders with carved steps. Once back on the other side, this walk follows the edge of creek upstream (keeping the creek to your right) for just shy of 100m, where the rocky track then bends left and leads up the hill then up a rock (with metal peg). The walk then leads along the side of the hill and soon passes beside a rock wall (on your left) and a section of handrail and steep valley (on your right). Here the rocky track continues along side of hill for about 250m before bending right and leading down to and across a short section of green timber boardwalk, then follows the GNW arrow post across Lyrebird Gully creek on the sandstone platform. Here the track leads up the other side of the gully, up a series of rock and timber steps for about 300m to pass a short section of handrail. Just before handrail, the track leads along a rock wall to find a 'Great North Walk register' box on a pole.

After filling in your intentions (and reading others entries), this walk continues up the stone steps with a handrail, where the track bends left and along the side of the hill for about 150m to cross a short flat timber bridge over a concrete channel. Here the track leads up the short hill, bends left and soon comes to a clearing to turn right at the 'The Great North Walk' sign. Here the track continues for another 120m through the larger clearing to come to the

21.22 | Lyrebird Clearing
(530 m 12 mins) Continue straight: From the clearing, this walk follows GNW arrow post uphill along the sealed management trail, from beside the tall green sewage vent. The trail winds steeply uphill for about 500m, then behind the house it bends right, mostly flattening out at the large 'To the Great North Walk' sign. Here the walk continues a short distance further to head around the locked 'Lyrebird Gully Track' gate coming to Glenview Rd (just beside the intersection with the Pacific Hwy).

21.75 | Int of Glenview Rd and the Pacific Hwy
(520 m 9 mins) Continue straight: From the locked gate (near the intersection of 'Glenview Rd' and the Pacific Hwy), this walk crosses 'Glenview Rd' and follows the footpath beside the Pacific Hwy to come to the base of the pedestrian bridge (just before the Aldi shopping complex). From the bottom of the footbridge near the Aldi shopping complex, this walk follows the ramp as it zigzags up to the bridge that then leads over the Pacific Hwy. On the other side of the bridge, this walk turns left then crosses the road, following the footpath down beside the road. The walk then crosses Glenview Rd at the traffic lights (intersection with the Pacific Hwy). Here the walk continues along the footpath between the Pacific Hwy and the railway line for about 200m to come to the entrance of 'Mt Kuring-gai Station'. Here the walk heads down through the tunnel to come to a signposted intersection, midway through the tunnel, at the base of the steps (that lead up to the train station).
