The Spit to Manly walk is a classic bushwalk on Sydney's Northern Beaches. The walk follows a well-maintained track and provides beautiful views over Middle Harbour. This walk is great for those looking for exercise or just a stroll along the shoreline of Sydney Harbour. If you have time, the sidetrips down to Grotto Point and up to Arabanoo Lookout are definitely worth the effort. There are also a few places to get a bite to eat along the way.

Spit Bridge

The Spit Bridge was originally built in 1924 to replace the punt service. The current Spit Bridge was built during the 1950's. The bridge is a bascule bridge, as it's middle section can be raised to allow tall ships through. This ability of the bridge does, however, stop traffic on a major arterial road, which has caused the bridge to be the centre of some controversy. The Spit Bridge carries the Spit Rd and the Manly Scenic Walkway.

Ellery's Punt Reserve

Ellery's Punt Reserve is a very nice grassed area on the north eastern side of the Spit Bridge. The reserve has road access and parking, and seems to be a popular spot for fishing from the bank. There is also seating and shaded areas.

Clontarf Reserve

Clontarf Reserve is a great picnic area and beach on Sandy Bay Rd, Clontarf. The large park provides great facilities with picnic tables, covered shelters, shaded children's play ground, a kiosk & restaurant, and toilets. The beach in the park has a netted swimming area. The park also has tap water, a public phone, showers and garbage/recycling facilities. There are plenty of shade trees in the park. There is a fee for parking in and around the reserve and the park is well managed by Manly Council. [More info.](#)

Clonny's

Clonny's is a neat kiosk and restaurant inside Clontarf Reserve. The kiosk is open 7 days (but may close dependant on weather and demand) and serves ice creams, drinks, chips, hot foods, and coffee. For those seeking something finer the restaurant is open for lunch on Saturdays and Sundays serving a 2 course meal for \$55. Phone on (02) 9948 2373. [More info.](#)

Castle Rock Beach

Castle Rock Beach can be found a short walk down from the Manly-to-Spit walking track, near Ogilvy Road. This small, secluded beach is a great spot for those wanting a quieter day at the beach, instead of the more popular and larger beaches in the area.

Grotto Point Lighthouse

Surrounded by a white picket fence, the small Grotto Point Lighthouse overlooks Middle Head. The light was designed in the early 1900s by the architect Maurice Festu to assist ships entering the harbour. Construction started in 1910, with the lighthouse being commissioned on September 1 1911.

Before You walk

Bushwalking is fun and a wonderful way to enjoy our natural places. Sometimes things go bad, with a bit of planning you can increase your chance of having an enjoyable and safer walk. Before setting off on your walk check

- 1) Weather Forecast ([BOM Metropolitan District](#))
- 2) Fire Dangers ([Greater Sydney Region, unknown](#))
- 3) Park Alerts ([Sydney Harbour National Park](#))
- 4) Research the walk to check your party has the skills, fitness and equipment required
- 5) Agree to stay as a group and not leave anyone to walk solo

Think before you TREK

The 'Think before you TREK' program developed by NSW Police & NPWS promotes the benefits of planning ahead for your bushwalking trip by using an easy to remember acronym:

- T** Take adequate supplies of food, water, navigation and first aid equipment.
- R** Register your planned route and tell friends and family when you expect to return.
- E** Emergency beacon (PLB's) should be carried on walks with significant gaps in mobile coverage (check terrain profile).
- K** Keep to your planned route and follow the map and walking trails.

The engravings at Grotto Point depict kangaroos, fish and what appears to be boomerangs. The engravings are in quite good condition, considering their age. We have already lost so much of this region's history that historians are not entirely sure if this is the land of the Gayamagal or the Cammeraygal clan. Please take a great deal of care at this site to ensure the longevity of this history. [More info.](#)

(670 m 15 mins) Turn left: From the intersection, this walk heads up the stone steps, keeping the water below on the right. The track winds to the top of the

4.41 | Arabanoo Lookout

Arabanoo Lookout has great views over Port Jackson, Northern Harbour and as far as Manly. The lookout also has several signs and monuments, providing historical information on the significance of the area. Looking out over Middle Head, this lookout is named after Arabanoo, an Aboriginal man kidnapped in December 1788, by British marines on Governor Phillips orders. The Governor believed that this was justified as he wished to facilitate communication between the British and the Aborigines. Arabanoo lived in the company of the Europeans until the 18th May 1789 where he died due to smallpox infection.

The walk then continues with thick green heath on the right and less dense heath on the left, before coming to the signposted intersection. Continue straight: From the intersection, this walk follows the 'Manly via Reef Beach' sign down the hill to a fenced lookout. From the lookout, the track heads further along the hillside to wind down past some more views. The track soon passes by a large rock shelf, as it comes close to the water and then comes to a boardwalk with bench seat behind Reef Beach.

5.25 | Reef Beach

Reef Beach is a strip of sand facing north-east, towards the Manly Ferry

Terminal in North Harbour. The beach is in Sydney Harbour National Park and has toilet facilities about 80m behind the beach. The beach was once a nudist beach, but clothing is no longer optional. The toilet has a fancy electronic and self-cleaning system, very cool (sounds silly, but check it out). The toilets and showers are accessible to people in wheelchairs, and a wide sealed footpath provides roll-in access from the end of Gourlay Ave.

5.84 | South end of Forty Baskets Reserve

(450 m 9 mins) Veer right: From the intersection, this walk follows the footpath across Forty Baskets Reserve (keeping the water on the right). 6.75 | Int of Beach Ln and North Harbour St

(510 m 11 mins) Veer right: From the intersection, this walk follows 'MSW to Manly' down the stairs, towards the water. Once at the edge of the water, the walk turns left and follows the footpath along the waters edge, around North Harbour reserve. At the other end of the park, the walk follows the footpath up the stairs to the end of King Avenue (aka Boyle St at this point).

Continue straight: From the intersection, the walk follows King Road, as it bends to the right, then left up the gentle hill, reaching a 'T' intersection with Lauderdale avenue.

Turn right: From the end of Bolingbroke Parade, this walk follows the concrete footpath, keeping the water to the right. The path winds behind the houses, through the open parkland, following the water. The walk passes picnic chairs and some nice views before coming to Fairlight Beach and ocean bath.

The footpath continues behind the houses and past several information signs before emerging onto Commonwealth Parade. Once beside the road, the footpath bends left and heads past Manly Waterworks. Just before West Esplanade, this walk turns right and heads along the footpath, with Manly Cove beach on the right, and soon comes to the ferry wharf.
