This walk is the southern most stretch of the Great North Walk and spends much of the time exploring the scenic and historic urban areas around Woolwich and Hunters Hill. Starting at the birth place of modern Sydney you soon enjoy a ferry ride across the world renowned harbour, passing the Opera House and heading under the Harbour Bridge. Once on dry land again you will explore the streets and some lovely pockets of remnant bushland of this peninsula. There are a few chances to stop at a cafe along the way before coming to open area at Boronia Park.
The Obelisk

The Obelisk in Macquarie Place (Cnr of Bridge and Loftus Sts) is the original Mile Stone for 19th century roads in NSW. The surrounding park is the original town square built in 1810, while the Obelisk was erected by Governor Macquarie (well actually the Convicts did the heavy work) in 1818. For nearly 200 years this monument stood as the zero mile/km marker for all principal roads. There are a number of inscriptions including distance markers and “The Obelisk was erected in Macquarie Place A.D. 1818, to Record that all the Public Roads Leading to the Interior of the Colony are measured from it. L. Macquarie Esq Governor”. The park has a number of historic items worth exploring.

Circular Quay

Where the harbour meets the city, Circular Quay is a transport hub joining the busy ferry wharf with the train and bus services. The Quay provides great views of the Harbour Bridge, Opera House and several other popular sights of Sydney. There are many small food kiosks and cafes as well as a McDonalds. Circular Quay is the site of Australia's first colonial settlement. In 1794, Thomas Muir was transported to Australia and later bought a farm and built a cottage on what we now call Circular Quay. Not a great deal is known about the traditional owners, as in 1789 almost half of this indigenous population died during a smallpox epidemic. It is reported that only three Cadigal people were left by 1791. In 1879, there were some Aboriginal people living in the boat sheds (near the now Museum of Contemporary Art) when they were dispossessed of that space so it could be used for hosting an international exhibition. Now, Circular Quay is popular among visitors enjoying the sites, and also daily commuters.

Woolwich Wharf

Woolwich Wharf, found at the end of Valentia Street, is a bit of a transport hub with a ferry terminal and a popular bus stop. There are public toilets in the bus shelter area, a public phone box and across the road is an open grass area and kids' playground in 'Valentia Street Reserve'. There is also a large sign highlighting the Great North Walk's presence.

Goat Paddock

Goat Paddock is the open area north of Woolwich Dock. The park has a path winding down through the middle, providing access to the waters edge. In 1835, the Clarke family received a grant of the land at the eastern end of the peninsula, what we now call Woolwich. In 1898, Morts Dock and Engineering Company bought this land and commissioned the excavation of the dock. The area is well maintained and is used by many locals for their morning strolls.

Think before you TREK

The 'Think before you TREK' program developed by NSW Police & NSW National Parks & Wildlife Service aims to improve the safety and enjoyment of those who enjoy bushwalking in NSW. It provides information to help you plan your next trip, and offers advice on how to stay safe while you're out walking. It promotes the benefits of planning ahead for your bushwalking trip by using an easy to remember acronym.

The surrounding park is a little oasis in the busy city, hosting a lawn surrounded by sandstone buildings built by the men who constructed the sandstone obelisk to commemorate the establishment of Sydney. The obelisk was originally a 9m high sandstone obelisk and then was moved to its current location in the middle of a small park. The site now has a small lookout where you can enjoy the site and the views of the Harbour Bridge.

Solomon & Sons company (commissioned by Morts Dock and Engineering Company) completed the excavation of 85,000 cubic metres of sandstone to construct this dry dock. At the time, this 188 metres long, and 27 metres wide, pit was the largest dry dock in Australia. In 1963, the Army purchased the site and now it is managed by the Sydney Harbour Federation Trust.
