Pisgah Rock, is a short walk from Nepean Lookout Fire Trail in the lower Blue Mountains, and provides excellent views up Erskine Creek Gorge. The informal lookout is not fenced, and the surface is uneven with large crevasse like cracks. The view is simply amazing, with great views right up the middle of Erskine Creek Gorge. There are also great views to the left, down Erskine Creek Gorge and across the flats of the southern parts for greater Sydney. The rock presumably derives its name from the height point on Mount Nebo, where the Bible reports Moses seeing the promised land for the first time. In Hebrew pisgah refers to a high place. This Pisgah Rock is very much a high place, with great views.
