

Wind Cave

15 mins

Easy track

400 m Return

▲ 14m

2

The interesting cave is formed by a tall and long section of wind carved stone. The cave is much taller than it is deep, and there are some nice rock formations. It is a fairly long drive in for a short walk, so you might be better combining this with a walk to Anvil Rock.

Are you ready to have fun?

Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are not included in this walks overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

Getting there Traveling by car is the only practical way to get to Anvil Rock Trail (gps: -33.5958, 150.3372). Car: There is free parking available.

This is a return, so you will finish back at the start.

Find up to date and more information including; travel directions, weather, park closures and walker feedback at <http://wild.tl/wc>

0 | Anvil Rock Trail

(200 m 5 mins) Getting there. Drive along the Great Western Hwy to Blackheath (West of Katoomba). Near the train station you will see a signpost pointing to Pulpit rock on Hat Hill Road. Follow Hat Hill Road - After about 2km it turns into a dirt road. Continue along the main road for almost another 6.5 km following the signs to Anvil Rock. There is a carpark at the end of the road. From car park, this walk follows the sign, pointing to wind eroded cave. The track heads around the large rock and cliff face, and soon comes to a very tall cave.
